### Product Advantages: New High Quality IIP-EU Development-Line

- IIP-Dossiers available for oral solution
- IIP-Dossiers authorized by central, decentral and national (DE) procedures
- **cGMP compliant European API manufacturer**
- **cGMP compliant European Contract manufacturer with high manufacturing capacities for sale peaks**
- Sugar- and lactose-free dosage form
- Glycerol- and maltitol-free unlike originator oral solution. As tendency to diarrhoea can be derived from effects of these excipients, better tolerability is expected for IIP solution.
- Original-like smell and taste ensures good compliance
- Well approved top down remove of the solution
- Exact and individual dosage system with easy to use syringes
- Well established child resistant and elderly friendly closure system
- Minimal risk of microbial contamination
- About half of the preservative amounts as in originator product. The solution is used in infants from 1 month on. As adverse effects of preservatives are generally known, better tolerability is expected.
- Therapy adapted package size
- Also available: IIP-Dossiers for 250, 500, 750, 1000 mg tablets and concentrate for solution for infusion (100 mg/ml)
- Qualification of a second API source
- Samples and exposé with scientific data available upon request
